

Join our team of climate scientists out in the courtyard straight after the show - they'll be answering questions and running activities!

The show was inspired by conversations with climate researchers and is kindly supported by the NERC-Oxford Doctoral Training Partnership in Environmental Research. Almost all our costumes, set and props are second-hand, borrowed, dead stock, reused or recycled.

We'd love to know what you think

DOCTORAL TRAINING PARTNERSHIP ENVIRONMENTAL What can I do now?

Here are a few ideas for things we can all do to tackle climate change!

Talk about it!

Start conversations about climate change with your family, friends, classmates, teachers and colleagues! Find conversation starters & tips at talkclimatechange.org where you can also log your climate conversations.

Write to your local politicians

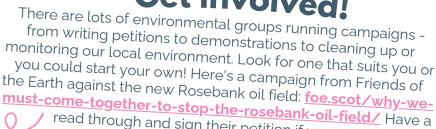

Contact your MP, MSP or other local representatives to tell them what you think about climate change. You can find email templates online or you could write a hand-written letter.

You can find your MP's contact details at <u>members.parliament.uk/members/Commons</u>. Why not send them a postcard from Edinburgh?!

Get involved!

Reduce your own climate impact

To solve the climate crisis we need governments and businesses to take serious action and fast! But our personal choices can still have an impact, including reducing our meat consumption and flying less. takethejump.org have 6 changes we can make and helpful how-to guides.
